The Groundwater Foundation

EPA Source Water Protection

Army Corps of Engineers

## Did You Know?

The Iowa City Water Division has a website that can help you find information about your drinking water: [www.icgov.org/water](http://www.icgov.org/water). Our site displays information on a number of topics to assist Iowa City residents, including articles on signing up or stopping water service, easy water conservation ideas, and using Iowa One Call when you have a project that requires digging. Annual water quality reports such as “2008 Consumer Confidence Report” and the “Water Quality Report for Specialized Water Use Customers” are also on the site. If you have any additional questions, please contact Carol Sweeting.

The Iowa City water purification facility is located inside Water Works Prairie Park at 80 Stephen Atkins Drive. Tours and presentations take approximately one hour and can be scheduled year-round by contacting Carol Sweeting at 356-5164 or [carol-sweeting@iowa-city.org](mailto:carol-sweeting@iowa-city.org).
