

North Liberty Five-Mile Pond Loop

One lap around the Centennial Park trail is 0.8 miles.

Here is a handy 5-mile route in the western half of North Liberty, just a few blocks off the North Liberty Trail. The entire route should be cleared of snow and ice. Even the smallest pond has charm and this route is dotted with them.

It may be a little cold for bare fingers, but check out the unique climbing structures in Centennial Park. Photo © Jamie Day —see how much fun it is: search for the video on YouTube: “Centennial Park Bouldering.”
